

Assistant Professor position in Isotope Geochemistry

The University of Nevada, Las Vegas (UNLV) invites applications for a tenure track position in Isotope Geochemistry at the Assistant Professor level. We seek outstanding scholars who will establish an innovative research program focused around solution chemistry mass spectrometry. The position contains a start-up package that includes a Nu Sapphire inductively coupled plasma mass spectrometer with collision cell and facilities for clean solution chemistry. The successful candidate should show experience in operating comparable analytical equipment.

Application materials must include a 1) cover letter, 2) curriculum vitae, 3) proposed research plan (three-page limit), 4) statement of teaching philosophy and interests (two-page limit), 5) a statement of past or potential contributions to diversity, equity, and inclusion (one-page limit), 6) 1-4 representative publications, and 7) contact information for at least four referees.

Review of applications will begin on **November 15th, 2023**. Materials should be addressed to Dr. Kevin Konrad, Search Committee Chair, and must be submitted through [Workday](#), as we do not accept emailed materials.
