

Fourth Wager & Brown Field Workshop on Layered Igneous Rocks

June 30–July 1, 2023: Field trip to St. David's Head Layered Intrusion, Wales

July 2, 2023: Workshop at Cardiff University, Wales

(The WB workshop precedes the 14th International Platinum Symposium)

This symposium commemorates the 55th anniversary of the publication of the seminal book “Layered Igneous Rocks” and invites everybody interested in such rocks to participate and to share and discuss new research. In particular, this time we hope to combine insights from both continental and oceanic (e.g. ophiolites) settings.

Further information will follow at <https://platinum2023.com>.
Send email to christian.tegner@geo.au.dk to register interest.

Organisers: Christian Tegner, Marian Holness, Rais Latypov, and Wolfgang Maier

Macrorhythmic modal layering, St. David's Head intrusion (Bevins et al., 1994).
